CONTENTS of Volume 69

THE BOTANICAL REVIEW for January–March 2003
69: 1–124

Foreword
1 **Dennis W. Stevenson and Jerrold I. Davis**

Should Taxon Names Be Explicitly Defined?
2 **Gerry Moore**

Is the Neotropical Flora Ready for the PhyloCode?
22 **J. P. Janovec, L. G. Clark, and S. A. Mori**

Apomorphy-Based Definition Also Pinpoints a Node, and PhyloCode Names Prevent Effective Communication
44 **Jun-ichi Kojima**

The Linnaean System and Its 250-Year Persistence
59 **Randall T. Schuh**

Critique of Pure Folly
79 **James M. Carpenter**

The Illogical Basis of Phylogenetic Nomenclature
93 **Roberto A. Keller, Richard N. Boyd, and Quentin D. Wheeler**

The PhyloCode Is Fatally Flawed, and the "Linnaean" System Can Easily Be Fixed
111 **Kevin C. Nixon, James M. Carpenter, and Dennis W. Stevenson**

Instructions for Contributors
121

THE BOTANICAL REVIEW for April–June 2003
69: 125–224

Two Theories of Origin of the Land-Plant Sporophyte: Which Is Left Standing?
125 **Will H. Blackwell**

The Ecophysiology of Foliar Anthocyanin
149 **Dugald C. Close and Christopher L. Beadle**

The Role of Fungicides in the Physiology of Higher Plants: Implications for Defense Responses
162 **Pablo C. García, Rosa M. Rivero, Juan M. Ruiz, and Luis Romero**

Demographic Trends in the Cactaceae
173 **Héctor Godínez-Álvarez, Teresa Valverde, and Pablo Ortega-Baes**

How Paleozoic Vines and Lianas Got off the Ground: On Scrambling and Climbing Carboniferous–Early Permian Pteridosperms
204 **Michael Krings, Hans Kerp, Thomas N. Taylor, and Edith L. Taylor**

THE BOTANICAL REVIEW for July–September 2003
69: 225–320

Optimization Theory in Plant Evolution: An Overview of Long-Term Evolutionary Prospects in the Angiosperms
225 **Antonio C. Allem**

Vegetation Ecology and Conservation on Tuscan Ultramafic Soils
252 **Alessandro Chiarucci**

A Review of the Temperate Broad-Leaved Evergreen Forest Zone of Southeastern North America: Floristic Affinities and Arborescent Vegetation Types
269 **Andrew M. Greller**

Allelopathic Evidence in the Poaceae
300 **A. M. Sánchez-Moreiras, O. A. Weiss, and M. J. Reigosa-Roger**

THE BOTANICAL REVIEW for October–December 2003
69: 321–458

Trees and Their Economic Importance
321 **M. K. Seth**

Systematics and Biology of Silica Bodies in Monocotyledons
377 **Christina J. Prychid, Paula J. Rudall, and Mary Gregory**

Isozyme and RAPD Markers in Relation to In Vitro Morphogenesis and In Vivo Development of *Vigna radiata* (L.) Wilczek
441 **Suhita Betal and Sarmistha Sen Raychaudhuri**
